Comments:

I am living here in MONTANA because I share the values that my neighbors have around public lands and wilderness. I am writing to ask you to protect those values and our lands. Please protect the Existing recommended wilderness including Dome Mountain, Chico Peak, Emigrant Peak, Red Lodge creek, West Woodbine, East Rosebud to Stillwater, and the Lionhead. Please Implement the Gallatin Forest partnership agreement and manage recommended wilderness just like designated wilderness. This is even doubly important after yesterday's U.N. report that we are losing our natural world and its inhabitants at a completely unsustainable rate. Please also consider Big Pryor, Punch Bowl, and Bear Canyon in the Pryors for wilderness as well. Please also protect the Cray Mountains. My grandson and future generations will thank you for your farsightedness.
