Comments:

I would like to express my support Forest Plan Version C. I appreciate the amount of work that the Gallatin Forest Partnership put together in order to create this plan. And as a recreationist myself that likes to Mountain Bike, Hunt, Fish, Backpack, I think it is important to have multi-use areas. This is especially true as the Gallatin Valley witnesses such a population growth of healthy lifestyle persons who desire to recreate in their own backyard. I support the Wilderness designation for the Gallatin Crest, and think this corridor from Hyalite to Yellowstone National Park should be protected and remain wild. Again, I am very impressed by the work of the Gallatin Forest Partnership and feel that consensus and compromise by many different backcountry use organizations were arrived at to create this Plan.
