

Dear Custer Gallatin National Forest:

As a longtime resident of Red Lodge, MT the  
Absaroka-Bearfoot Area is a very special  
place. I have hiked, biked and fished enjoying  
Red Lodge Creek and East Reservoir. These  
areas should be maintain and managed  
as wilderness. human motorized traffic  
and preservation is important to me. Rumors  
are too many to discount or abuse and  
lack of preservation. FZACS preserve these  
AREAS.
