Comments:

I strongly support the existing Gallatin Forest Partnership and continued mountain bike access to these areas. The rugged, remote, natural feel of trails in the Lionhead and the Bridger Range is a truly special riding experience and I do not feel that I degrade it in any way by simply riding a bicycle there. Mountain bikers have left volunteered thousands of hours of trail work over the years and have left the area better than we found it. Please use a Backcountry Area (BCA) designation to manage this area as described in Alternative E.
