Comments:

To Whom It May Concern:

I strongly support of strengthening Alternative D by setting strong standards to achieve the "desired condition" of viable, self-sustaining populations of American bison on the Custer Gallatin National Forest.

Listing American bison as a species of conservation concern, reintroducing fire as a natural force in expanding habitat, removing barriers to migration and securing habitat connectivity are all crucially important to the survival of America's last Bison.

Lastly, I completely support American bison's freedom to roam National Forest habitat.

My best,

Kim Duncan
