Comments:

I support Alternative D of the Revised Draft Forest Plan. I think Alternative D would be improved adding these changes. (1) Add the entire 230,000 wild, roadless acres of the Gallatin Range as Recommended Wilderness in the final forest plan. (2) Prohibit all motorized and mechanized uses in the Recommended Wilderness areas. (3) Address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness. Eliminating fish stocking would likely go a long way toward solving this problem, but additional measures should be considered if needed.
