Phone: 4065568118

Comments:

The affirmation is that overpopulation is crowding our streets. The solution is educate children and women. Public land must be kept free of motorized vehicles. Main Street should not be federal property, so that the community of Bozeman could designate that a non motorized path way as well. These kinds of corridors, like the one that will be installed underneath the I90 HWY here to promote healthy ecology and the livelihood of our children by allowing wildlife passage accross the monumental transit ways that disrupt their prosperity, are crucial for a future that I would want to live in. Suicide, drug use and quick fixes to problems that cannot simply disappear will continue to expand on generations to come until rape and pillage in the name of God and the patriarchy morph from violence to movements of awareness and compassion and feminine liberation.
