Comments:

As a homeowner and resident of land that is connected to the Gallatin National Forest I am writing in support of Alternative D of this forest plan. However, I suggest adding the entire 230,000 acres of the Gallatin Range in the final plan. I have never seen the area behind my home on Rainbow Ranch Road patrolled or regulated in terms of allowing motorized vehicles and reckless hunting. It has been without any controls on how many animals are hunted or any motorized vehicles going off road. There is so much land that I know it cannot all be watched at the same time but there needs to be some kind of regulation happening so that people know there are limits to what they can do to this National Forest Land.
