Comments:

I am writing to comment on The Custer Gallatin National Forest's Draft Management Plan.

I support the full incorporation of the Gallatin Forest Partnership (GFP) Agreement into the plan for the Gallatin and Madison ranges. Looking back in our history, virtually every time we have taken steps to protect public lands from man-made insults, every time we have set aside land for protection, every time we have taken actions to improve wildlife habitat, we have come to view those decisions as wise. May we once more be wise.

Thank you for your work on the Draft Management Plan.
