Comments:

Having spent most of my 70 years. In and around the GYE, I have a special and personal interest in the fate of the wild country there. This is critical, superlative wildlife habitat, the like of which is disappearing everywhere around the world. It is imperative that we preserve the few small fragments we do have.

As such, it is clear that the Gallatin Citizens Wilderness proposal does the best job of maintaining the ecosystem in such a way that it can provide optimal wildlife habitat and also enhance the ability of humans to enjoy a true wilderness experience.

Obviously alternative D comes closest to preventing degradation of the ecosystem, but it is crucial that Porcupine - Buffalo Horn receives adequate protection.

The Gallatin Forest Partnership is an illegitimate and pretentiously misleading entity which has no validity and should have no say in the outcome.
