Comments:

I have been fortunate enough to spend most of the months of May and September in the Yellowstone ecosystem for each of the past 21 years. The Gallatin, as you well know, is a critical part of that ecosystem.

I travel there because of the amazing diversity and abundance of wildlife, including grizzly bears and bighorns. I spend most of my time walking in the ecosystem and looking for and at wildlife.

I strongly urge you to enact Alternative D. Its best for the Gallatin, for the ecosystem, and for Americans and America. And for people like me and the thousands I believe see it similarly to the way I do.
