Comments:

Please protect the wildlife habitat in the Custer Gallatin Nat'l Forest. As you know there is still illegal hunting and trespassing via ATV's on this land already. Allowing legal hunting and trespassing will do irreparable damage to both the land and the wildlife. Now that our president has taken our countries precious animals off of the endangered species list, your decision whether to allow trespassing and hunting on this land is more dire than ever before. Please do the right thing and vote with your heart. Thank You for your time!
