Comments:

I would like to start off by letting you all know that I was born in Bozeman and we have four generations of family in the valley. I have been using the motorized trails summer and winter for 40 years. Every time that a plan like this goes into effect we loose more and more motorized land use. Isn't there enough wilderness that no one can use because our trails are not there to let people access it? I'm strongly against this plan and feel that the motorized side of the plan is not getting represented and we will loose more shared use land yet again.... I ride throughout the Gallatin forest (my back yard), from Little Bear to West Yellowstone.
