Comments:

I please do everything you can to protect the gallatun range and keep it in its current state. I Have hiked several of the mountain ranges in Montana and one thing is clear. They are a wild part of the world, home to a multitude of plants and animals. Once lost that will never come back. They are not ours to exploited, but ours to pass through with care and appreciation.

Everyone who travels in our mountains must feel something of this. Please take this opportunity to do the right thing and protect them for the future of our home
