Comments:

I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan, adding the entire 230,000 wild, roadless acres of the Gallatin Range.

The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection, in the Recommended Wilderness areas so as to preserve their wilderness qualities until Congress acts on the wilderness recommendations.

The Forest Service should reduce group size limits accordingly so as to protect all Wildernesses on the forest from harm.

The plan must address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness.

Limit the number of cows permitted in the wilderness area as they have been scientifically proven to be the most destructive.
