Comments:

I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan; however, they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan. The plan must address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness.

Eliminating fish stocking would likely go a long way toward solving this problem, but additional measures must be included if needed. Please take steps to ensure preservation of water quality and wilderness status.
