Comments:

I strongly support option D of the proposed forest service planning options.

I spend over 150 days a year in our national forests. I'm an avid skier, hiker, and mountain biker. Although plan D would reduce some biking options, I believe the preservation of our dwindling wilderness is a more vital objective than recreational opportunities. We can't create more wilderness, so we must preserve all available habitat for the sake of our planet and future generations.

I implore you to be responsible stewards of our public lands and support option D

Sincerely,

Ken McKenna
