

## Summary from Sleep Giant Middle School Cougar Friday – Forest Plan Revision 15 min presentation with comment writing

### Primer questions:

1. What do you care about on National Forests
  2. What do you want to see the plan include?
  3. When you are in jr. high, highschool, adults what do you want to make sure the National Forests have?
- 
- Don't change the forest, it's supposed to be natural, sell cool hoodies
  - Anyone can go, it's great, there's wildlife. I think everything is really great, I like the new plan thing. There is wonderful scenery. You can hunt and fish on public land. You can camp and hike, it's awesome, important air and water. I think it's perfect how it is. I like the new plan thing too. This is why I like the national forest – we can camp, hunt, fish, it's kinda hard to describe I guess.
  - National Forests are always a great way to explore, camp, play, ect. I have always gone and camped, fished and more with my parents and I hope that National Forests will always be a part of the world and I hope it will still hold the power of the outdoors
  - The Forest is always a great place to go and camp, hunt and fish. I hope it will always be that way. The wildlife need the forest for habitats and food. We need to keep it that way.
  - I think I want to have more hiking trails because they allow us to have a hands on experience Maybe more trails up mountains and you can camp without a permit, not everyone wants to get a permit.
  - I really like the animal part of national forests. Seeing wolves, coyotes, birds and deer is always really cool. I also love animals a lot so it would be amazing if future generations could experience the same thing as we do
  - I really like the animal and camp aspect of the whole thing. I think you should keep it so more people can see wildlife and stay outside. That's what you should keep.
  - Please continue to be public, keeping it for water too, no mining, better watched (no poaching) continue letting people camp, hike and have fun. Thank you so much for everything.
  - They should make it so people can't have fires or smoke on National Forest grounds, save the Forest! Ban logging and mining operations.
  - Trees, animals, plants, trails, hot springs, save it.
  - I hope it stays pretty and don't burn down the trees, safer camping, no logging, prevent the ecosystem.
  - We should go shed hunting, no logging
  - Elk, bears, fish, plants, hunting, hot springs, wolves, turkeys, eagles, I hope they stay forever
  - Bears, trees, plants, hunting, fishing, wifi, pretty, hot springs, animals, no tourism, climbing, biking.

- Trees, balanced ecosystems, waterways, I want the Forest to not be interrupted by human structures, camping, bears, fish, birds, hot springs, no logging, no mines, public lands in public hands, I think there should be no subdivisions, I also think that there should be limited water amounts you can take from a stream for ranching. I think certain water should be bonded from extracted water.
- The national forests are good so we can hunt and fish and camp. It is a good place to hang out and be pretty. It should not get cut down because it a good job create. Teepee, Shed hunting
- I want to protect trees, rivers, fishing, trucking, oceans, wheels, bison
- Trees, the creeks, animals, elevation, plants, insects, people still visiting the wildlife, humidity, temperature, amount of sun and water. These are always going to be important to me.
- Trees, animals, plants, pretty, rocks, snow, flowers, rain, lakes, creeks, mud, dirt – I enjoy all these things and hope they will always be there.
- I hope that the forest still will have trees, deer and elk
- I want animals to still be around forever. I always love to see all of the wildlife. I also like to see the water, plants and the rocks.
- Wildlife, hunting access, trees, hot springs, plants, water, no motorized, vehicles
- Trees, animals, hunting access, hot springs, water

Don't change, nature, anyone can go, wildlife, scenery, hunt and fish, public lands, public hands, camp, hunt, awesome, important air and water, national forests, explore, camp, play, fish, power of the outdoors, wildlife needs habitat and food, hiking trails, hands-on experiences, animals, future generations, camp aspect, wildlife, stay outside, keep public, water, no mining, no logging, camping, hike, no fires, save the forest, trees, animals, wildlife, plants, hot springs, trails, pretty, elk, bears, fish, plants, wolves, turkeys, eagles, i hope they stay forever, biking, climbing, balanced ecosystems, trees, hangout, bison, rivers, creeks, insects, flowers, mud, dirt, animals, hunting access
