

Dear Custer Gallatin National Forest:

As a resident of RED LODGE • a native Montanan I love my mountains. I spend a fair amount of time hiking & enjoying both the AB & Pryor Mountains. ^{managing} ~~keeping~~ these areas as wilderness is a crucial part to the enjoyment of living or visiting our area. I support the Forest Service maintaining the existing wilderness and manage the Bad Canyon as no mechanized & motorized recreation. I have seen the damage both of those cause to wild areas. The Pryor's should be managed as wilderness as reflected in Alternative A. These areas especially would be easily ruined by mechanical & motorized vehicles
