Comments:

I Please consider continuing to protect the Crazy Mountains, the roadless areas in the Pryor Mountains by establishing them as wilderness areas. It would also be a shining example of passing on the heritage of free and wild lands to future generations of Montanans and visitors to our great forest lands by maintaining current wilderness boundaries for the Beartooth Absaroka complex and adding Dome Mountain, Emigrant Peak, Chico Peak, Woodbine, East Rosebud Creek and Red Lodge Creek. It would also be my preference that management of these recommended wilderness areas would be in the same manner as designated Wilderness areas by allowing foot horse travel only and prohibiting motorized or mechanical use on these lands. It would be a great step forward if CGNF would implement the Gallatin Forest Partnership agreement in the management practices of the CGNF. There is plenty of forest for all to enjoy, please add the previously listed recommended wilderness areas and continue protection of existing Wilderness lands.
