Comments:

I am in support of strengthening Alternative D by setting strong standards to achieve the "desired condition" of viable, self-sustaining populations of American bison on the Custer Gallatin National Forest.

Listing American bison as a species of conservation concern, reintroducing fire as a natural force in expanding habitat, removing barriers to migration and securing habitat connectivity.

Again, I support the strengthening and adopting standards for Alternative D, the environmentally preferred decision in the Custer Gallatin National Forest plan, and listing American bison as a species of conservation concern in Region 1.
