Dear Custer Gallatin Forest Plan Revision Team

The Absaroka Beartooth as well as the Madison, Henry's Lake and Gallatin Geographic areas are some of the most environmentally valuable places in the Forest. The new forest plan must protect them from growing recreational and climate impacts. Please cement our recreational footprint in place through the Gallatin Forest Partnerships recommendations, including ~ 130,00 acres of new wilderness. In addition, protect existing wilderness and recreational hubs by extensively monitoring and managing the growing impacts of recreation and climate change.

In addition...

Population growth in Montana is pressuring these areas. Protection is needed.
