Comments:

First of all, wow! This has been such a giant undertaking to revise the forest plan, and I just wanted to say thanks. I know you are bombarded with polarized opinions, and it can be hard to pick sides and move forward. So, whatever the final plan ends up being, thanks for listening to all of us.

As far as my own personal opinions go:

1. Please consider the Gallatin Forest Partnership Agreement. I am a member of BHA, MWA, GYC and also support IMBA and WWA. It is incredible that all of these folks and so many more got together to make a plan that balances recreation, conservation, and wildlife. Alternative C includes many parts of the GFP Agreement, but the full Agreement should be incorporated into the final plan.
2. Specifically in the Bridgers, please keep Bridger Bowl to Fairy Lake non-motorized, Fairy Lake to Frasier Basin accessible by snowmobile, and non-motorized Frasier to Flathead.
3. Wilderness from Chico Peak to Dome Mountain should be strongly considered.

Thank you again for your hard work and the for the opportunity to submit comments on this plan.

Sincerely,
Becca
