Comments:

As a former Montana resident, USFS employee, and a member of the public who loves our National Parks and Forests (YNP being my favorite), I propose the selection of Alternative D for the CGNFP Revision and encourage you to adopt strong standards to protect not only the bison, grizzly bears, bighorn sheep but also the habitat needed to support these populations - the wilderness and connecting corridors and water the future survival of these wildlife. I feel standards are a better tool than guidelines to measure progress in this endeavor. Thank you for the opportunity to comment.
