Comments:

Please keep access to mountain biking in the Lionhead region open to mountain biking. Managing this valuable area as a Backcountry Area (BCA) as described in Alternative E is best, and will ensure that this area is used, loved and stewarded for generations to come. We have lost similar trails and terrain like this here in Idaho (Buffalo White Cloud) and it has been a travesty that has created more conflict and less cooperation. Let's not make the same mistakes and keep this area open to mountain biking.
