Comments:

I believe this is the wrong way to go! I am a outdoor enthusiast and the way I see the wilderness in my area is not good! It's pull of beetle kill and deadfall a big kindleing box it's unhealthy more wilderness only makes this problem greater! Also for the people that snowmobile, motorcycle, etc. it limits our places to go. After seeing people in our area know one uses the wilderness know one likes to go outside anymore marking more wilderness take land from the small group of people that actually use and and want to enjoy the area! I am a firm believer that wilderness will only make more land not get used and more unhealthy ecosystems. If you take a little bit you start taking more and eventually there will be nothing left for the people of Montana to actually use!
