Comments:

I generally support Alternative D wilderness recommendations for the Revised Draft Forest Plan, BUT this plan still needs improvement. Please add in to Recommend Wilderness status for the entire 230,000 wild, roadless acres of the Gallatin Range. It is essential to protect this gem!

The plan needs to prohibit all motorized & mechanized uses. The plan needs to include provisions for protecting the watershed from contamination by feces (humans and their domesticated animals). End the practice of fish stocking. And please, limit group sizes!

Thank you for caring about our precious forest lands. Visiting wilderness areas is what gives me the inspiration to live.
